### Description

In 1966, the Pick Museum purchased a medicine face mask (catalog no. 66-8-8) from the Original Curio and Prospectors Shop in Santa Fe, NM. Pick Museum records identify the

There is a relationship of shared group identity between the identifiable earlier groups, tribes, peoples, or cultures and one or more Indian Tribes or Native Hawaiian organizations. The following types of information were used to reasonably trace the relationship: anthropological, geographical, historical, oral traditional, and expert opinion.

### **Determinations**

Pursuant to NAGPRA and its implementing regulations, and after consultation with the appropriate Indian Tribes and Native Hawaiian organizations, the James B. and Rosalyn L. Pick Museum of Anthropology at Northern Illinois University has determined that:

- The one cultural item described above is a specific ceremonial object needed by traditional Native American religious leaders for the practice of traditional Native American religions by their present-day adherents.
- There is a relationship of shared group identity that can be reasonably traced between the cultural item and the Seneca Nation of Indians.

### **Requests for Repatriation**

Additional, written requests for repatriation of the cultural item in this notice must be sent to the Responsible Official identified in **ADDRESSES**. considered a single request and not competing requests. The James B. and Rosalyn L. Pick Museum of Anthropology at Northern Illinois University is responsible for sending a copy of this notice to the Indian Tribe identified in this notice.
